

Web Design Planning a Website

By: Grace Lewis

Site Name:

- SirCooksALot

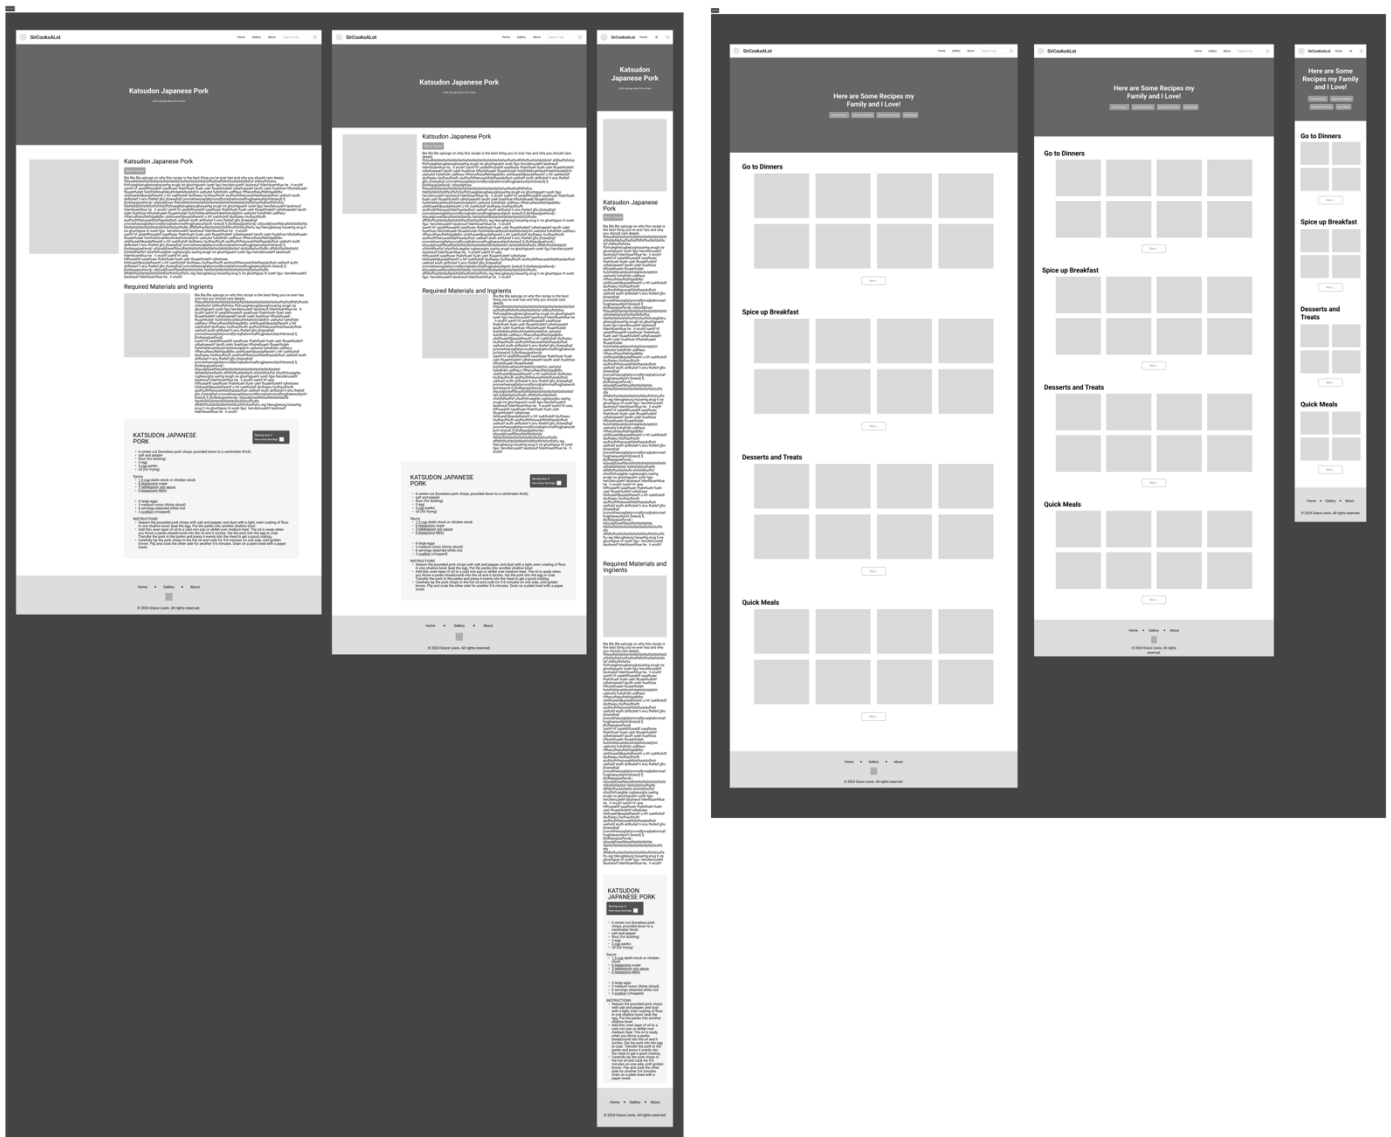

Site Goal:

- Currently, cooking websites need to be simplified. I want to find a way to simplify it and make it easier to use.

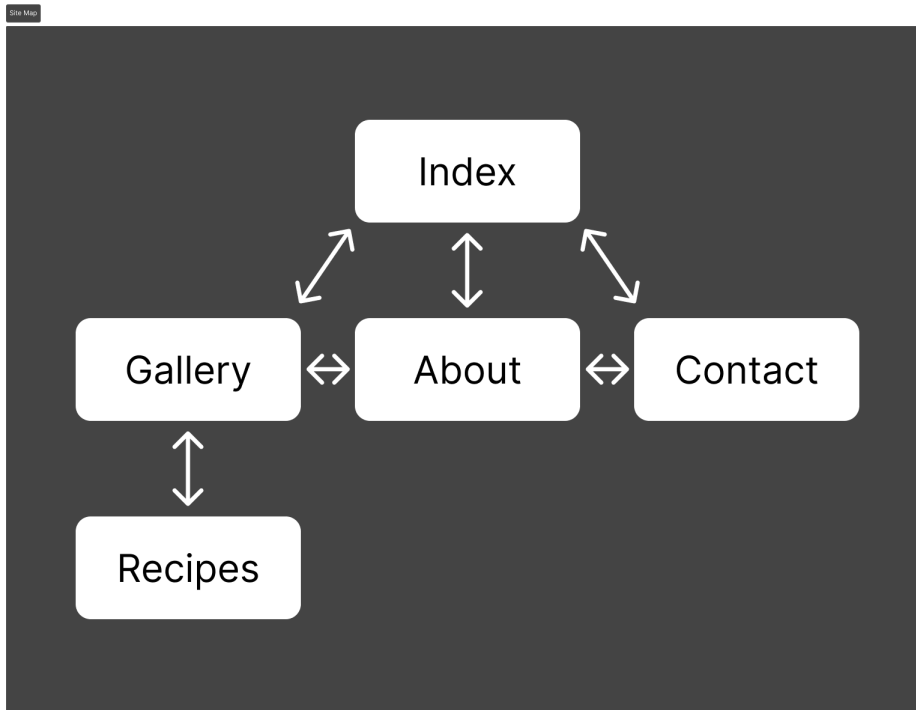

Audience:

- My main audience for this site is college students who are looking to make more of their own food but are annoyed with some of the standards seen in most recipe websites. I want to make them more user friendly.
